

Teiwaz Rapid Chamber Flag - FDE

The Wolfskrieger Teiwaz Rapid Chamber Flag is a two-piece chamber safety system for AR-15, HK416 and compatible platforms. A chamber insert and external cover are retained by the bolt, providing a highly visible chamber indicator while also helping seal the ejection port against dust, dirt and debris during transport, storage and field use.

Unlike conventional chamber flags, the Rapid Chamber Flag can remain installed with a loaded magazine inserted. This keeps the rifle in Condition 3: magazine inserted, chamber empty while maintaining a clearly visible safe condition.

When the rifle needs to be brought into operation, simply cycle the charging handle. The Rapid Chamber Flag is automatically ejected and a round is chambered, transitioning the rifle directly to Condition 1: magazine inserted, round chambered and ready for use.

The result is a chamber flag that combines visible safety, protection of the action and a fast, intuitive transition from safe to ready.
